

# PRESSURE REGULATORS

For Constant  
Outlet Pressure

## APPLICATIONS

- All irrigation systems

## SPECIFICATIONS

- 3/4" low flow model: 0.25 to 4.4 GPM
- 3/4" high flow model: 4.5 to 17.6 GPM
- 1 1/2" model: 11 to 35 GPM
- Other models available up to 175 GPM
- Maximum operating pressure: 145 psi

## ORDERING INFORMATION

| DESCRIPTION  | psi | GPM               | MODEL NUMBER  |
|--|-----|-------------------|---------------|
| LOW FLOW<br>INLINE 3/4" FPT<br>INLET x FPT<br>OUTLET | 15  | 0.25<br>to<br>4.4 | PRV075LF15V2K |
|  | 20  |                   | PRV075LF20V2K |
|  | 25  |                   | PRV075LF25V2K |

For larger Pressure Regulators (above 35 GPM), call Customer Service.

FPT = Female Pipe Thread  
MPT = Male Pipe Thread

3/4" LOW FLOW

3/4" HIGH FLOW

1 1/2"

Exploded view of 3/4" High Flow Pressure Regulator with replaceable Pressure Regulating module.

## FEATURES & BENEFITS

### EASY INLINE ASSEMBLY

Low flow model - female inlet/outlet. 3/4" high flow model - female inlet and male outlet.

### SEALED REGULATING MODULE

Available on 3/4" high flow and 1 1/2" pressure regulators.

### BUILT-IN INDICATOR ON 3/4" HIGH FLOW AND LARGER MODELS

Indicates when proper outlet pressure is achieved.
